### **Reasons for the Loss and Future Prospects of Profit**

The main reason of loss during the quarter is decrease in gross profit of the company as a result of low volumes and exorbitant cost of imported material and higher cost of doing business.

Management is committed for sustainable growth in business and continuously making efforts for growth in sales volumes and profitability. However, rupee devaluation and increase in global commodity prices are posing new challenges.

### **Related Party Transactions**

All transactions with related parties have been executed at arm's length and have been disclosed in the financial statements.

### **Future Outlook**

Although Pakistan has secured some short-term relief in economy but the macroeconomic situation is still challenging, particularly for auto sector.

The Auto Industry Development and Export Policy (AIDEP) for the period 2021-2026, as outlined by the Engineering Development Board requires all automotive industries in Pakistan to meet specific annual export quotas. For the fiscal year 2023-24, the target is set at 4% (compared to 2% in 2023) of the C&F Value. As we understand failing to achieve this target would have serious consequences, including the inability to import essential materials and, ultimately, a complete halt to all industrial operations.

While we acknowledge and support the objective of promoting exports, the automotive industry faces unique challenges due to territorial restrictions from principals and the limited market for right-hand drive vehicles. Nonetheless, we maintain a positive outlook and anticipate that the government will consider granting some relief to Original Equipment Manufacturers (OEMs).

Despite the challenges, the management of the Company remains committed to devise strategies to overcome them, aiming towards a sustainable growth with the objective of creating value for its shareholders. Plans are in motion to significantly modify the Company's financial and operational aspects.

The directors are grateful to the Principals, customers, vendors, bankers and other business associates for their continued patronage and support.

The main reason of loss during the quarter is decrease in gross profit of the company as a result of low volumes and exorbitant cost of imported material and higher cost of doing business.

Management is committed for sustainable growth in business and continuously making efforts for growth in sales volumes and profitability. However, rupee devaluation and increase in global commodity prices are posing new challenges.

### **Future Outlook**

The economic landscape of the country is undergoing gradual improvement creating hopes for better prospects for a broad base recovery. The management remains fully committed to managing challenges and delivering sustainable profitable growth capitalizing on our strong brands, management capabilities and operational excellence, the group is taking adequate measures to bring efficiencies and create value for the stakeholder.
